Comment: Objection on the following grounds:

Access issues - a narrow road at the end of a series of cul-de-sacs.

Unsuitability of land for development. LANP 2 - Development of the Leominster Sustainable Urban Extension will be permitted subject to the criteria in Policy LO2 of the Core Strategy and the following requirements: (a) A detailed masterplan is in place for the whole site. Individual sites should be signed in accordance with this plan. The development of the site should be phased and designed so the look and the feel of the urban extension is of distinct incremental developments with a variety of layouts including squares, courtyards, lanes and terraces rather than a uniform housing estate. Good connections to Leominster Town are essential. The application fails on this point.

LANP19 Community & Highways Infrastructure - Proposals to create new and improved walking, cycling and public transport routes will be encouraged. This includes the following - Movement to and from Barons Cross. The application fails on this point.

The traffic projection is low with only 30 cars and the traffic counts took place in half term.

Traffic exits onto Ryelands Road from Westfield Walk, Ryelands Road is almost single carriageway due to parking, and also onto Bargates from Westfield Walk. Bargates has been identified as a site with a high level of air pollution.

The application refers to a Transport Plan from the 2011 Census when there was a more up to date Draft Transport Plan in 2019.

The number of houses taken into account (top of Westcroft and Bircher Close) excludes the remainder of houses in Westcroft and surrounding cul de sacs.

The flooding potential for the Worcester Road area is serious as the system will be overloaded and Welsh Water have recommended a Hydraulic Modelling Assessment be carried out.
