

RECORD OF PROW ANOMALIES

<u>Date</u>	<u>Reported by</u>	<u>Anomaly</u>	<u>Notes</u>
03.02.2022	Member of the public (MOP)	Along path ZC3 that is straight without dogleg shown into Summergals, alongside the river channel passing location where paths ZC1 & 2 are shown as crossing the river channel but presumably when dug no provision was made for this, and back along ZC4 that is shown passing through sports building and over sports pitches, it presumably not rerouted when sports centre was created.	Raising DMMOA's may be simplest way for LTC to record a request to correct the borough's records, including the path from The Broad to ZC143 with BB suggestion that HC be asked to dedicate as evidence.
07.02.2022	MOP	ZC158, shown going through house and garden in Broad Street opposite entrance to Vicarage Street to Arkwright Close? Old maps show this as a brook not a path.	To be deleted.
08.02.2022	MOP	Path shown on maps but unrecorded that links Stockenhill Road with end of Orchard Lane.	Could be put in system to be added tidying up local records?
11.02.2022	MOP	Up Eaton Close, and along unrecorded footway in northwest corner to footpath ZC96 (A similar unrecorded footway is in northeast corner to connect with footpath ZC97A).	
11.02.2022	MOP	The steps between Green Lane and end of Perseverance Road are unrecorded, gap for pedestrians to be marked.	
16.02.2022	MOP	Footpath ZC97B, shown running parallel to and south of Coningsby Road, when there is no path in this location, nor any shown on old maps, and could be put in system to be deleted.	
01.03.2022	MOP	Orchard Lane is shown with pink line on the 'Local Street Gazetteer', but not shown on the 'Street Works Register', nor does it show if click on 'Highways and public rights of way map', but it is a highway with public street lights?	
01.03.2022	MOP	The written statement for footpath ZC20 shown connecting with end of Orchard Lane says From end of Camp Road, the name used by Borough of Leominster District Council when providing the path information in 1950's, so is it Orchard Lane or Camp Road?	
01.03.2022	MOP	Gateway Lane, shown with pink line on the 'Local Street Gazetteer', but not shown on the 'Street Works Register', nor does it show if click on 'Highways and public rights of way map', but it is a highway connecting footpath ZC94 with Churchill Avenue.	
01.03.2022	MOP	The written statement for footpath ZC94 says 'From Gateway Lane jct 140yds S of Croft Street', not Churchill Avenue?	
08.03.2022	MOP	Suggest deletion of those parts of paths along roads, such as that part of ZC5 along end of U93656 Vicarage Street, part of ZC100 along U93714 Glendower Road, and part of ZC141 along U93701 Paradise Court.	
08.03.2022	MOP	To add those footways through Paradise Court with public street lights connecting Bridge Street with footpath ZC141.	

08.03.2022	MOP	The reopened unrecorded river bank walk, 'The Broad (Bridge Street?) to ZC143', this footpath should be recorded.
15.03.2022	MOP	Delete path ZC161A - this is now U93619 Falconer Place and Falconer Place Footway Z93603.
15.03.2022	MOP	Show connection between Etnam Street and Caswell Crescent as being a footway, not road.
15.03.2022	MOP	Pinsley Road Footway Z93620 is same as any other pavement so delete.
15.03.2022	MOP	Adding one of the longest paths in Leominster, through Ginhall Green / Linier Park from Ginhall Lane / Woodfen Crescent to the short part that is shown being Hillview Footway Z93629.
18.03.2022	MOP	Deletion of those parts of paths along roads, including part of ZC19 along U93644 Newlands Road, part of ZC18 along U93653 Westfield Walk, part of ZC101 along U93609 Southern Avenue, part of ZC6 along U93696 Mappenors Lane and part of ZC156 along U93695 Radnor View.
18.03.2022	MOP	Add the 4 footways across the grass between Radnor View and U93667 The Rugg.
18.03.2022	MOP	Add the footway across Broad Street carpark linking U93706 Arkwright Close with U93622 The Priory, including the footway loop along river bank past the slipway, they both having benches to sit on, and in regular use.
18.03.2022	MOP	Some branches of U93658 Ridgemoor Road are signed The Mallards?
22.03.2022	MOP	ZC135 my viewing this as a footpath that crosses the A49 Leominster Bypass without any provision to cross, and subject of a proposed diversion, see attached DZC135, are LTC aware of this proposal, who raised it, etc., as is an example of what is required for paths ZC1, 2, 3 and 4?
22.03.2022	MOP	Re the deletion of a number of PROWs for various reasons, would recognise that HC may consider they would need to make representation to the Minister, as they did when seeking a deferral or cancellation of the 2026 deadline, as am not aware of any examples of deletion other than 'not being needed', and the legislation may require to be amended to enable deletion of paths that do not exist, or are now estate roads.
28.04.2022	MOP	The walk from Sandpits past garages then over Ryelands Road Park to Ryelands Road (Close to Mortimer Street) is not shown.
28.04.2022	MOP	The green space in Vicarage Street is not shown.
28.04.2022	MOP	This weeks walk anomaly is footpath ZC143 leading off Mill Street towards the river bridge, part of the Herefordshire Trail. We walked the well used path, shown on maps, that would suspect has been walked ever since Dales diverted this path some time ago. and not the overgrown line shown on HC PROW map.

11.07.2022	MOP	Footpaths ZC1 & 2, there are no longer records showing any plans to build a bridge, reroute or close these paths when the flood protection scheme was undertaken, being in the 60's/70's.
24.05.2022	MOP	Bridleway ZC79 terminates at M.B. bdy 300 yds E. of Pervin Wood, with any continuation over the M.B. bdy in Hope-under-Dinmore not shown.
